A Chance to Send Clothing to Company C. Rock City Guards.

We are requested to state, for the information of persons having friends and relatives in Capt. R. C. FOSTER'S Company of Rock City Guards, on service in Virginia, that packages of Clothing, securely put up, and left at the office of Fosters & McEwen, Cedar Street, will be forwarded, at an early day, to their destination. Every package should be marked with the address of the soldier for whom it is intended.

Preparations for the volunteers in Wertern Virginia, in the way of clothing, are being made by many persons in this city who have children in the service. They find it very expensive, so greatly have prices advanced. These are truly times that " try men's souls," in more ways than one.

FLAGS.-It will be seen, on referring to Mr. JNO, LUCK's advertisement in another column, that he is prepared to make Flags, of either Silk or Bunting, of any size that may be desired. Here's a chance at last for those who have been desiring Flags made of good materials to supply themselves.

PUBLIC MEETING. Relations of Kentucky and Ten-

nessee. Pursuant to public notice, a large meeting of citizens assembled yesterday morning at the Court House, for the purpose of considering the relations of Kentucky and Tennessee. On motion by J. B. PITMAN, Esq., his of all grounds for such apprehensions. In Honor Mayor CHEATHAM was called to the Chair, and H. K. WALKER requested to act as compliment to the distinguished ability ex-

Hon. Andrew Ewing addressed the meeting briefly in regard to the objects for which | concluded by reading liberal extracts from it was convened. He said that the people of the late address to the people of East Ten-Tennessee deeply desired no conflict with nessee by Hon. T. A. R. NELSON. Governor Kentucky-that they knew of no ground for Foors highly applauded the recent course of such a conflict. They had every confidence Mr. NELSON, and expressed the opinion, from in the patriotism of the masses of that State, and made no pretence of questioning their right to determine their own position. He believes, however, if the people of Kentucky were obliged to decide the question whether they would fight for Tennessee or against her, they would decide to fight for her by an overwhelming majority. Unfortunately that | condition of things in Kentucky. people were not permitted to decide. The policy of the Lincoln Administration seems to be to provoke a stanggle on the border of Kentucky and Tennessee, probably for the purpose of diverting our forces from Virginia. Our people are anxious to avoid this conflict. and had assembled to-day to say to the people of Kentucky, if this war is to come, Kentucky | They are handsomely gotten up, and beautimust make it. We are friendly, and desire to remain so, only asking of Kentucky, if she for Bex and Charlie's lunches and fine cicannot go with us, that she maintain her nedtrality inviolate, and not permit the formation of Federal camps in her territory, and the transmission of Federal soldiers, arms and munitions across her territory to invade Ten-

Mr. Ewing concluded by moving the appointment of a committee of five to report resolutions expressive of the sense of the meeting, which motion prevailed, and The Chair appointed, as such Committee,

Messrs. A. Ewing, N. Hobson, F. R. Rains,

Isaac Panl and H. S. Foote. The Committee having retired, Dr. W. K. BowLing, being loudly called for, took the stand, and addressed the meeting at some length in an eloquent and interesting speech. He spoke in feeling words of his love for the oud and gallant State of Kentucky, eulogized the warlike spirit of her people as exhibited upon every battle field where the eguse of American liberty had been involved, and assured his hearers that however unpropitious the signs might be now, that the hearts and hands of the people of Kentucky must eventually, and very soon, be in full sympathy and co-operation with the great cause of Southern Independence-really as much her cause as ours. He explained her peculiar position, and the strong influences which had operated to place her in her present attitude. The remarks of Prof. B. were listened to with great pleasure by the large ture of paper, and are as valuable as any of assembly, and elicited the warmest endorse- the products of the soil or manufactory A

The committee on resolutions returned and through their Chairman, Hon. AndREW | therefore save them. They are better than Ewing, reported as follows:

The people of Tennessee, deeply impressed with the suffering and distress likely to arise from a hostile collision between their forces conviction that such a strugger avoided. Born from the same ancestry, entering the Federal Union at the same time, fighting side by side against the Indians, the

British, and the Mexicans, generally concur ring in our Federal policy, and united geo-graphically and socially by the closest connections and ties, it will be a deplorable result for us to sever our association by war and bloodshed. large changes are the results of Government

NASHVILLE, Aug. 29th, 1861. There has been no improvement in trade since our ist weekly issue. All branches of business except hose connected with the military service of the ountry are, generally, inactive. There is a good deand for groceries, but the stock is light and sales mited. The stock of Coffee has been kept up by additions which the high price has caused dealers to effect in spite of the blockade. There has been an advance again in the price of salt, the stock of which is in the hands of speculators who are making the consumer " sweat." They hold barrel at \$1.50 per bushel and sack at \$7.00. There has been an improvement n the price of flour caused by the mability of mills to upply the demand. Our milis are constantly employed and doing all they can to supply the trade.

The specific gravity of fresh water was 1.01222*—distilled water being taken as the standard.

I understand that the water has already been beneficial to several invalids. It will be beneficial to a greater degree when taken fresh from the Spring. I should pronounce it stimulant and tonic, and adapted, consequently, to cases of debility, accompanied with an anomic condition of the system, and contra-indicated in plethoric and inflamatory states
